

*Dear Assembly Member* \_\_\_\_\_,

The New Jersey Civil Service System has worked to give everyone an equal opportunity to serve the public and to protect public jobs from politics and corrupt politicians. This system has guaranteed fair access to important jobs based on experience and expertise, not political connections. Now Governor Christie wants to close the door on opportunities for qualified and hard working middle class residents, lay off qualified and committed workers, and protect these jobs for political cronies, friends and relatives.

**I am writing to urge you to oppose Governor Christie’s “tool kit” which is nothing more than an attack on clean, honest government. Let’s get corruption and politics out of government, not increase it.**

*Dear Governor Christie,*

The New Jersey Civil Service System has worked to give everyone an equal opportunity to serve the public and to protect public jobs from politics and corrupt politicians. This system has guaranteed fair access to important jobs based on experience and expertise, not political connections. Now you are planning to close the door on opportunities for qualified and hard working middle class residents, lay off qualified and committed workers, and protect these jobs for political cronies, friends and relatives.

**I oppose your “tool kit” which is nothing more than an attack on clean, honest government. I urge you to work to get corruption and politics out of government, not increase it.**
