

SHUT DOWN BIG INSURANCE

On March 9th the biggest health insurance lobby in the country, America's Health Insurance Plans, (AHIP), is holding its national conference at the Ritz Carlton Hotel to plan their campaign to kill health care reform. They are spending tens of thousands of dollars to bring their high priced lobbyists and executives to Washington to stop the change we demand to provide millions of people quality, affordable health care.

We'll be there to shut down this meeting and put insurance companies on notice:

We will not allow these big corporations to use their special interest money and lobbyists to bully Congress into rejecting the health reform we elected the President and Congress to deliver just so they can protect the status quo, their gouging rates and their multi-million dollar salaries and perks.

Tuesday, March 9th, 2010
